## **SUSTAINABILITY AND DOING THINGS PROPERLY ARE TWO SIDES OF THE SAME COIN**

At ID® we are known for delivering high quality. It is very important to us that we do things properly. Quality craftsmanship, keeping our promises and treating others with respect. This has proven to be a good path and the result has become high quality at every step – something both we and our customers are very satisfied with.

We have watched the industry develop over 30 years. We have also developed and adapted – but always in line with our values. This has proven to work in the long term, even in a changeable world.

When consumers began to expect more ethical and environmentally friendly production, this meant new conditions and major changes for many textile companies. At ID®, we simply continued on the path we had already taken. If you do things properly, you are well on your way to sustainability. We are therefore able to document consideration for people and the environment through a number of certifications – and as you can read on page 12, we are not stopping there.

You can call it doing things properly, or quality. We are proud to be able to deliver well-designed and durable products – precisely when and where our customers need them.

Welcome to ID® Identity.

ID® Direct

# Total package matched to your corporate brand

ID® Direct has supplied international companies with complete profile clothing packages for many years. Solutions designed to strengthen the customer's corporate brand, and implemented in a way that satisfies the highest expectations of quality, responsibility and logistics.

## The right skills

ID® Direct is backed by a team of experienced designers, purchasers and quality and logistics people hand-picked to meet the requirements of your project. Our experienced specialists listen carefully and offer professional consultation on all aspects of the development process. The result is a package which is matched to your needs at every step.

## Your own unique design

We are happy to provide custom solutions – even on a large scale. For example, a project might involve specially designed profile clothing for various departments, countries or employee groups. Or you might need customised logistics, with special warehouse solutions and delivery to multiple locations around the world.

## Partnership with security

As an ID® Direct customer you get access to attractive purchasing options from our network of producers. This is your security that your products are purchased with a focus on cost-effectiveness and social and environmental responsibility. All our products are covered by high ethical and environmental requirements, and we are happy to answer any questions about certifications or the like.

Are you looking for a professional solution to your profile clothing needs?  
Let ID® Direct create the right package for you.

## ID® Service

### It doesn't get any easier – one stop shopping

*ID® Service is our post-processing department for profile clothing. Based on our resolve to be an attractive partner, we have the necessary equipment to offer application of transfers, badges, chips, bar codes and other decorations applied using heat.*

Warehouse services

# Welcome to stay the night

---

As an ID® dealer or end user, you can enter into an attractive agreement with us to use our professional logistics system and warehouse capacity. Simply lease the number of square metres of floor space you need on a monthly basis, and you decide what to store there. You can even store products not purchased from ID®.

- + **Everything is shipped within 24 hours**
- + **Electronic processing**
- + **Easy tracking for your products**
- + **Always several control points**

## ID® delivery reliability

### Your clothing is on its way within 24 hours

*We have developed a strong logistics system which processes orders with great precision, and ships all orders within Europe within 24 hours. Everything is processed electronically, so once you have entered your order, all data is sent through the system directly to the employee who packs the goods. Security within the system is also supported by numerous control points at every step of order processing.*

# CSR flows from action, not words

---

CSR is about taking responsibility for a company's impacts on people and the environment. In a new partnership with Bureau Veritas ID® has taken CSR to a new level.

Our company was founded more than three decades ago. People did not talk about CSR back then, but from the beginning we knew we wanted to be a supplier that did things properly – and hence responsibly – irrespective of where in the world our goods were produced.

This approach has given us a reputation as one of the best in the industry at delivering high quality, well-designed and durable products. And we will continue to do so. In our experience there are always customers who understand the value of quality – and one of these is sustainability. A good product which lasts a long time is far more ethical and environmentally friendly than a throw away product. This makes our contribution to sustainability very concrete and effective, as it is integrated into everything we do – every day.

## Raising the bar with Bureau Veritas

ID® has attained OEKO-TEX® certification, and has been a member of BSCI for many years. ID® also works with CSR based on the 10 principles in the UN global compact, which promote human rights, the environment and anticorruption.

Yet we wanted to add something more which could further raise our standards for quality, environment and ethical considerations. We therefore initiated a partnership with Bureau Veritas in 2015. This has led to a revised version of our quality manual, which includes input from the Danish Technological Institute. This manual is not a declaration of intent, but a tool which has already been put to use. It is divided into seven sections containing specific requirements for suppliers' processes and the products they deliver to us. Each section contains detailed but comprehensible

## OEKO-TEX®

### OEKO-TEX® guarantees 'healthy' clothes

*The OEKO-TEX® certification guarantees that clothing contains no harmful substances. Clothing carrying the OEKO-TEX® label meets requirements for pH value and levels of harmful substances, such as pesticides and heavy metals. ID® offers a large selection of OEKO-TEX® labelled products.*

follow-up tools, which are significantly improving our efforts. The manual is targeted at the people who have to work within this framework. We were determined to give our business partners a practical tool. One that set reasonable requirements for their efforts, and was realistic to implement. Ultimately it is only the intentions which are translated into action that count!

### **More audits – better documentation**

The total number of visits to our partners from third party organisations has more than doubled in just two years. This has had a positive effect on the factories' performance, and since BSCI adjusts follow-up initiatives to match the need, these have been correspondingly reduced. However, our partnership with Bureau Veritas ensures that we continue to maintain and retain our follow-up, so that the BSCI Code of Conduct is observed. The new manual is supplemented by even more audits at our partners' factories, in which Bureau Veritas participates. This ensures detailed control, better follow-up and more thorough and current documentation. We have also incorporated more stringent requirements on the use of various chemicals and cleaner technology in production processes – known as BAT (Best Available Techniques).

### **BUREAU VERITAS**

*The Bureau Veritas group is one of today's largest companies in the world within inspection, classification, counseling and certification. They supply services of high quality to help their customers comply with the increasing demands on quality, safety, environmental protection and social responsibility.*

**Move Forward with Confidence**

### **BSCI**

*ID® is a member of BSCI. BSCI (Business Social Compliance Initiative) is a network of 750 European companies which has formulated a set of common ethical principles for purchasing and production in non-EU countries. This means production where there is no child labour, forced labour or any form of discrimination, the guarantee of a safe working environment and reasonable wages and working hours. The rules also carefully consider the environment.*

# ID<sup>®</sup> 10 Principles

ID<sup>®</sup> takes its responsibility as a clothing manufacturer seriously. We have therefore formulated a 'Code of Conduct' that states exactly what we require of our suppliers and partners. You can have a clear conscience when you do business with us – and when dealing with your customers you can confidently recommend our products as ethically responsible. Based on the UN Global Compact.

# Partners in Bangladesh

---

Responsible textile production is not about geography. We began production in countries like Bangladesh in the 80s, and have continually developed our collaboration with our partners there. The close dialogue and mutual loyalty has made it possible to implement very high requirements in relation to quality, the environment and working conditions.

From the beginning ID® has only had production at factories we have personally visited. In 2006 we went one step further and established an office in Dhaka, Bangladesh, so we could be present at our producers' on a weekly basis. This gives us a detailed knowledge of the factories' working conditions and quality level, and strengthens relationships with our partners.

Our other suppliers work in line with the same directions as our partners in Bangladesh. They have also received the quality manual and signed the requirements in the seven sections. This entails sending us inspection reports, conducting BSCI audits and being visited by Bureau Veritas, among other initiatives.

We have a clear and constant focus on CSR and quality. We strive to always be one step ahead of our customers' requirements and expectations – and never deviate from our own principle of doing things properly.

# USE IT OFTEN – USE IT WELL

## PRO WEAR

---

Hard work demands clothing which is designed for movement and wear. PRO wear is the answer for employees who are active in their work, and need clothing which simply lasts, day in and day out. PRO wear is available in many sizes and versions, and all products are designed for movement, so they are comfortable to wear in any working position. The clothing is also pre-shrunk, so you can always rely on the fit.

It can handle daily washing at temperatures up to 80°C for whites, while colours can be washed at 60°C.

# ALWAYS PRACTICAL – ALWAYS STYLISH

## POLO SHIRTS

---

The polo shirt is a classic in any wardrobe. It is practical and durable, and also a good alternative to a buttoned shirt, and an ideal choice for work and leisure use.

We have the biggest range of colours and sizes on the market and a wide range of polo shirts. You can always be confident of the renowned ID<sup>®</sup> quality, which keeps its colour and fit, even after many washes.

# TAKE CARE – AND BE SAFE AND VISIBLE

## REFLECTIVE AND SAFETY CLOTHING

---

Visibility and comfort are essential for safety and security. We have therefore put together a collection of reflective and safety clothing which ensures a high degree of visibility for employees, wherever they go. A number of our products have also been certified under the international EN ISO 20471 standard.

# WHAT DO THE ICONS MEAN?

BREATHABLE	Breathability is measured in MVP (Moisture Vapour Permeability). MVP specifies how much moisture in grams can be transported out per square metre per 24 hours. The higher the value, the better the comfort.	ISO 15797	ISO 15797 is an international standard for evaluating a product's suitability for industrial washing. The tests are carried out in close cooperation with external experts.
2000 BREATHABLE	2000 MVP	QUICK DRY*	Permanent moisture transmitting, breathable and quick-drying material.
3000 BREATHABLE	3000 MVP	QUICK DRY	Moisture transmitting, breathable and quick-drying material.
4000 BREATHABLE	4000 MVP	YKK MAIN ZIPPER	Quality zipper from YKK
5000 BREATHABLE	5000 MVP	ZIPPER WATERPROOF	Waterproof zipper
7000 BREATHABLE	7000 MVP	ACTIVE	The product for active leisure or sport
8000 BREATHABLE	8000 MVP	♀	Ladies' model
WINDPROOF	Windproof material	♀♂	Unisex
WATER REPELLENT	Water repellent product made of waterproof or water resistant material, without waterproof seams.	FITTED	Tight fitting model
WATER PROOF	Waterproof product with waterproof seams. The waterproof level is measured as the water column pressure in millimetres, and expresses how much water pressure a fabric can withstand before water presses through it.	LOOSE	Loose fitting model
3000 WATERPROOF	3000 mm water column pressure	REGULAR	Regular model
5000 WATERPROOF	5000 mm water column pressure	OEKO-TEX®	OEKO-TEX® ensures that the product complies with the limit values for levels of harmful substances.
6000 WATERPROOF	6000 mm water column pressure	ID TECH	The product is designed for an active lifestyle, and has a good fit offering optimal freedom of movement. ID Tech® products are clothing with excellent functional qualities (breathable, wind and water resistant and moisture transmitting).
10000 WATERPROOF	10000 mm water column pressure	PRO wear	PRO wear has been developed for professional use. It can withstand daily washing at high temperatures. The series fulfills requirements of strength, colour-fastness and fit.
MEMBRANE 3-LAYERS	Breathable, wind and water resistant three-layer membrane.		
TAPED SEAMS	Taped seams for maximum protection against wind and rain.		

## SIZES AND MEASUREMENTS

### FIND THE RIGHT SIZE – PURE AND SIMPLE

With the measurement guide from ID® you will find the right size straight from the beginning. The measurement guide is the essence of various standard measuring methods, and smaller variations in the sizes might occur. All measurements are in centimeters.

ID® measurement chart and size specifications depend on correct washing and drying of the product.

#### LADIES

- A Chest measurement  
Chest width is to be measured horizontally at the widest point
- B Waist measurement  
Waist width is to be measured horizontally at the slimmest point
- C Hip measurement  
Hip width is to be measured horizontally at the widest point
- D Height

#### MEN and UNISEX

- A Chest measurement  
Chest width is to be measured horizontally at the widest point
- B Waist measurement  
Waist width is to be measured at waistband
- D Height
